

## **Position Title: Equine Veterinary Pathologist**

Qatar Foundation (QF) is a non-profit organization that supports Qatar on its journey to becoming a diversified and sustainable economy. By offering lifelong learning opportunities, fostering a culture of innovation, and empowering the local community, we are investing in Qatar's future and contributing to a better world.

Al Shaqab represents a unique and unparalleled concept in the equine world. A member of the Qatar Foundation, the mission of Al Shaqab is to promote the highest standards in the breeding and showing of Arabian horses, as well as provide innovative educational and competitive opportunities in all of the equestrian arts.

Al Shaqab – Equine Veterinary Medical Center (EVMC) is a state of the art equine referral center located in Doha, Qatar open for all horses in the state of Qatar and the Gulf region. The hospital is equipped with a 3T MRI, CT-scan, nuclear scintigraphy and the latest technology in radiology. The hospital has 2 operating theaters, a well-equipped farrier shop, and lameness examination areas on three surfaces. Other specialized medical services at AS-EVMC include internal medicine/ neonatal ICU, theriogenology, and anesthesiology/ pain management. In addition, AS-EVMC consists of a state of the art veterinary diagnostic laboratory, including necropsy services. The center offers excellent research opportunities for clinicians that are interested in developing an independent or collaborative research program. Designated research laboratory space, equipped for cell culture, molecular biology, chemistry and endocrinology supervised by a full-time laboratory researcher will be available to assist and coordinate laboratory research activities.

Al Shaqab Equine Veterinary Medical Center is seeking applicants for a full-time position in **Equine Veterinary Pathology**.

**Responsibilities:** The successful candidate will be in charge of the pathology unit at AS-EVMC, including responsibility for necropsies, histopathology and other diagnostics of animals and biopsy specimens. The successful candidate is expected to contribute to the advancement of knowledge in equine veterinary medicine in his/her area of interest through retrospective and prospective research projects; and, to further the national and international reputation of AS-EVMC.

**Qualifications and experience:** Minimum requirements include 5 years' work experience in Equine Veterinary Pathology along with a veterinary degree (DVM or equivalent) and board certification or similar proven record of specialization in Veterinary Pathology. A research degree (MS or Ph.D.) is desirable.

**Compensation:** Qatar Foundation offers an attractive compensation package that includes a tax-free salary and additional benefits such as housing and transportation allowance, annual paid leave, annual airfare allowance, life and medical insurance, etc.

**Application:** Applicants should submit a letter of intent, Curriculum Vitae, and the names and contact details of three references to [recruitment@qf.org.qa](mailto:recruitment@qf.org.qa). Applications will be accepted until the position is filled. Review of applications will begin January 1, 2017.
