

VETERINARY PATHOLOGY

**British Society of Veterinary Pathology
in association with the
University of Bristol**

Veterinary and Comparative Pathology Seminar Series 2014

**Wednesday 20th August 2014 at 5 – 7 pm
Hodgkin Lecture Theatre, Pearson Building, University of Bristol, Langford, Bristol**

2 Royal College of Pathologists CPD credits have been awarded for this seminar

There will be a charge of £1.50 per person to attend this seminar – if you wish to attend, please contact Debra Fewes - D.Fews@bristol.ac.uk or Lucy Oldroyd - lucy@abbeyvetservices.co.uk no later than **Monday 18th August 2014**.

Talk Synopsis:

1. **An overview of common rodent tumours**
The session will provide an overview of the tumours most likely to be encountered in laboratory and diagnostic pathology practice.
2. **New diseases of ferrets and rabbits**
The session will provide an overview on new diseases of ferrets and rabbits.

Seminar Moderators:

1. Cheryl Scudamore is an RCVS Specialist in Veterinary Pathology and is currently Head of Pathology at MRC Harwell. She also holds honorary Chairs in Veterinary Pathology at the Royal Veterinary College and Surrey University Veterinary School. A varied career path spanning academia at RVC and R(D)SVS Edinburgh, working as a pathologist for Covance and GSK and as Head of Pathology Sciences at GlaxoSmithKline provide the background to her current role. She remains active in providing postgraduate veterinary pathology education and is particularly interested in developing training networks to support laboratory animal pathology.
2. Dr. Bruce Williams received his DVM degree from the University of Georgia in 1985. He completed a three-year residency in veterinary pathology while in the US Army at the Armed Forces Institute of Pathology, and completed ACVP certification in 1992. He has been a staff member of the Department of Veterinary Pathology since 1992, and senior pathologist of the AFIP (now the Joint Pathology Center) since 2008. He is the President of the C.L. Davis Foundation for the Advancement of Veterinary Pathology and Lab Animal Medicine since 1994. He has directed and been the featured lecturer at the AFIP and C.L. Davis' Descriptive Pathology Course, Gross Pathology Course, and Pathology of Laboratory Animals Course since 1992, having taught at over 80 iterations of these courses on six continents! He has written numerous chapters and publications on a wide variety of animal species, including ferrets (in Ferrets Rabbits and Rodents, Clinical Medicine and Surgery, 2nd and 3rd editions, Biology and Diseases of Ferrets, 2nd and 3rd Editions, Clinical Veterinary Advisor, Birds and Exotic Pets), rabbits (Vet Clinics of North America), and guinea pigs (The laboratory rabbit, guinea pig, hamster, and other rodents, ACLAM Series), as well as numerous journal articles on all of these species.

Seminar Organiser: Lucy Oldroyd
